Precis du siecle de Louis XV et his-
toire de Parlement de Paris. Le siecle
de Louis XV. Zola, E. L'assommoir.
Page d'amour. Reve. Le. Ventre de
Paris. Le.

TEMPE WOMAN'S CLUB OPENS SEASON OCT. 1

The Tempe Woman's club, one of
the strongest organizations in the Cen-
tral Arizona district federation of
clubs, will open its season on Oct. 1,
according to the announcement made
yesterday.

Mrs. Howard Brown, who served as
president the past year, will again be
at the head of the club, which has
added materially to its membership.
The initial program will be featured
by the president's talk, in which an
outline of the year's work will be in-
corporated. Music will add to the pro-
gram, in which all members will take
part by a few words in response to
the roll call.

ALUMNI MAKE READY FOR COYOTE BATTLE

The P. U. H. S. Alumni held a pep-
py meeting at the Y. M. C. A. last
night and Coach Geary laid down the
plans for this season's football squad
that will meet the Coyotes at Eastlake
park in their first game of the season
on October 2.

Captain George Peters, the husky
halfback that made such a record on
the gridiron while at Occidental college
a few years ago, was more than pleased
with the material on hand at the meet-
ing. He said: "We're sure to have a
winner this season, fellows, if you'll all
come out and work hard."

There were plenty of the old stars on
hand to again get together and make
ready for the big game. However, with
Coach Geary back of the Alumni, to
give them the necessary dope for put-
ting out a championship squad, it is
more than certain that Coach Thatcher
of the high school will have to give his
men hard workouts before they'll be
ready to come in contact with the light
but fast Alumni squad.

Coach Geary has called the first
practice for tomorrow morning, and all

Alumni of P. H. S. are requested to
meet at the dressing rooms of the high
school at 9:30 sharp. He will undoubt-
edly put the grid warriors through a
light workout and will pass out the
signals, which will give the boys plenty
of time to absorb them. While the
Alumni will not get probably as much
practice as they might, it is almost
certain that they'll be in excellent con-
dition for the battle.

The time for practices that are to
follow the one to be held tomorrow
will be announced later, but it is sup-
posed that the old vets will have at
least seven or eight good field work-
outs, which, according to Geary, will
be sufficient.

HIGH SCHOOL NOTES

There will be a big football rally on
Tuesday. Captain Jones, who is in
charge, is preparing some good stunts
to be pulled off in the assembly. He
also has appointed a committee to
consult with Captain Gilliland in or-
der to plan a part of the program.
This is going to be one of the best
assemblies that has ever been pulled
off in Phoenix high. Everyone shall
watch for it.

Football practice will be held this
afternoon at 3 o'clock. All candidates
should be out.

Don't forget the opening banquet of
the H-Y club next Tuesday evening.
Besides good eats there is a very
good program in store for those who
attend. Addresses will be made by

Professor Jantzen, Coach Thacker and
James Shelly, president of the club.
Charles Gilliland will be toastmaster.

All students are urged to be present.
October 12 will be a big day for all
the reds, as army officers will be in
Phoenix and will inspect the battalion.
Captain Jones hopes to have every-

thing and everyone in tip-top shape
by that time. Cadets, don't forget the
date.

Cadets of companies A, B and C are
delighted over the announcement
that they will receive the real Spring-
fields by the end of next week. No
more "dummies" for them if they han-
dle the real ones properly.

NEXT YEAR

will you harvest
your own crops in
SAHUARITA?

or will you continue to rent from a landlord?

Mr. Farmer—Sahuarita is not "one crop"
land.

Sahuarita offers real opportunity to you
—Sahuarita is the land of plenty.

Come to Sahuarita!

It's time you realized that good money can
be made out of other things than cotton. It
is also time you prepared yourself for the
return of normal times and normal prices.
Is your capital properly invested to meet
this change that is bound to come.

We have nine hundred acres, with water
on the ground, four hundred of which is
cleared, grubbed and ready for the plow.
We have land at a price per acre that makes
it possible to raise other crop than cotton at
a profit.

THINK IT OVER CAREFULLY
PLENTY OF GOOD WATER (NOW ON
THE LAND)

FINEST OF SOIL (MARICOPA SILT)
THE BEST MARKET IN THE WEST
EXCELLENT TRANSPORTATION
WONDERFUL SCHOOLS AND COLLEGE
AT TUCSON

All you could ask for in climate and priced
right at from \$200.00 to \$250.00 per acre.

The People Who Make Their Mark are the People Who Own Their Homes

Think of the most substantial people in America
today. Are they the migratory kind—the kind who
live here today and elsewhere next year? No de-
cidedly not! They are *home owners*. They have made
town and hamlets and cities. They are the back-
bone of the nation.

Look at the home owners in your vicinity. They
are looked up to and respected by the entire neigh-
borhood. They bear the impress of esteem and
approval which comes of being an established part
of the community in which they live.

There is no reason in the world why you can't also be a
home owner! In the long run it costs less to build than
to rent. The same amount of money you pay out each
month in rent, would in a very short time build you a
home and pay for it entirely, so why occupy a home when
you might just as easily own that home?

When you become a property holder—when you
live in a *home of your own*—you gain a self-confidence
and self-reliance unknown to the renter. You own
something of *worth*—something which represents
actual money—something which is *yours* and can-
not be taken from you.

And don't overlook the asset of financial security
in home owning. In your own home you have the
finest investment in the world. Should any unfor-
seen emergency demand money you can always ob-

tain it with your property as security. This know-
ledge of financial security eliminates the worry and
uncertainty of the future and gives that sense of
safety and added strength that has *made* the people
that made their mark.

In building your own home you not only better
yourself socially and financially, but you are doing
a *real duty* to your wife and little ones. You are
building for their future happiness and safety and
protection—preparing a fireside for yourself and
family for perhaps a lifetime. It is an established fact
that eighty percent of the adult population of this
country leave no estate whatever at death. This state-
ment will hold no terror for you when you are living
in your own home; you will be content knowing
that, if through accident or death your earnings
cease, your family will be safe beneath the shelter
of their own roof.

Build now! There is nothing to be gained by waiting.
Authorities concede, it is true, that building costs are
above normal but they also state that costs cannot be
lower for some future time as yet unforeseen.

For any information you may desire on any subject
pertaining to locations, plans, finishings, furnish-
ments, equipments, costs, information concerning
architects, contractors, etc., call on our Service De-
partment. We will be delighted for an opportunity
to be of service to you and there is no obligation
whatsoever attached to it.
